

# REMININGTON

LIGHTING

*Lighting the Path  
to Independence*

Since the 1970s, Remington Lighting has partnered with leading design firms to deliver **durable, high-quality lighting** that balances luxury and performance.

Today, we bring that expertise to Senior Living; helping create spaces that **feel like home**, from independent living to memory care, with the precision and design sophistication today's communities demand.

DIMMABLE DRIVER

Brightview Annapolis. MD

Senior Independent Living, Assisted Living, Memory Care

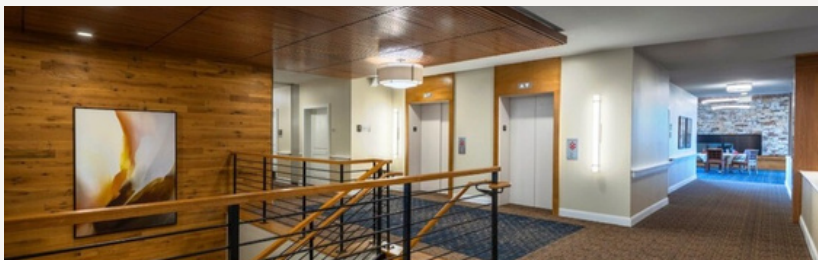

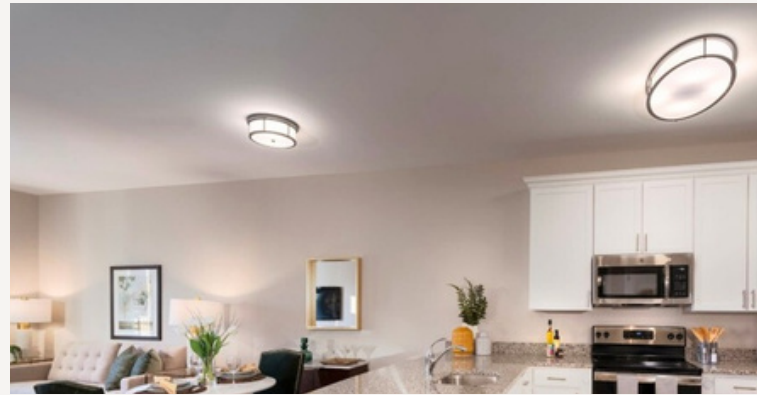

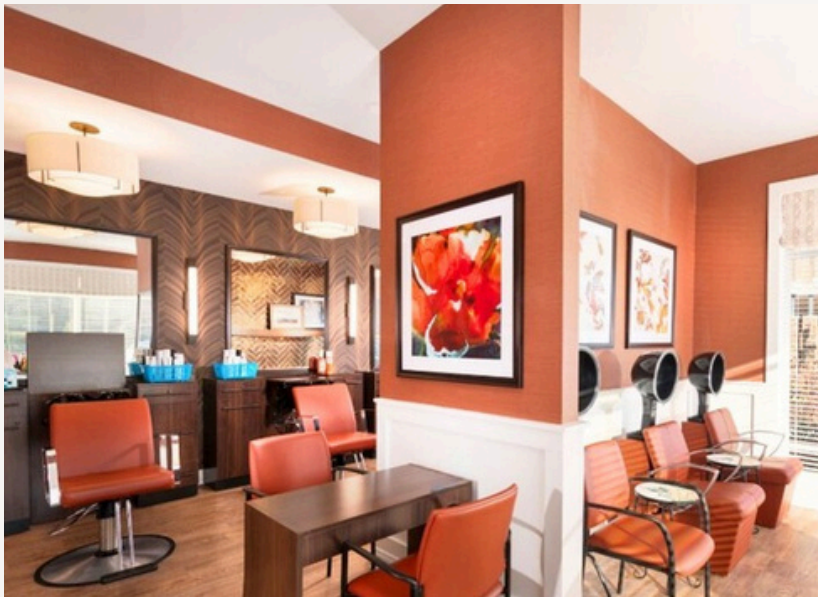

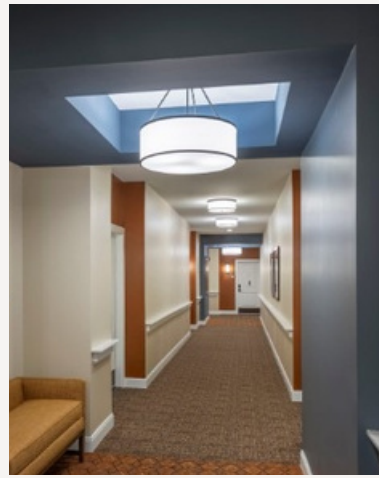

- 2700K–3000K warm LED lighting to make common areas feel welcoming and "lived-in" rather than institutional.
- Glare mitigation by using frosted or matte finishes and indirect lighting to soften light.

# *Oversized & Sculptural*

Using large, statement pendants in entryways or dining rooms creates a "hospitality-first" atmosphere while serving as helpful landmarks for navigation.

Remington Lighting bridges the gap between timeless craftsmanship and modern functionality. From our quick ship solutions to bespoke, one-of-a-kind commissions, we provide the high-performance lighting necessary to create safe, accessible, and beautiful environments.
